AGCM Fund

Notes to the financial statements (continued)

as at 31st March 2015

Note 5 - Performance fees

In addition to the investment management fee, a performance fee is calculated and charged as follows for the WP EUR Unit class, as specified in the table below and in accordance with the principles outlined below.

Performance Fee Mechanism	High Water Mark
Performance Fee Calculation Period	yearly
Performance Fee Benchmark	EUR003M + 5% annual rate
Performance Fee Rate	20%

The performance fee is accrued daily based on the outstanding number of Units on the Valuation Day and payable yearly (as per the last business day of the calendar year) based on the performance of the Net Asset Value per Unit above the benchmark during the calculation period. Should no performance fee is payable at the end of the calculation period, the calculation period is extended to the end of the next calendar year. High Water Mark principle applies. The High Water Mark is the greater of the Net Asset Value per Unit at the time of issue and the highest Net Asset Value per Unit achieved as at the end of any previous Calculation Period where performance fee was paid.

In the event that an investor redeems Units prior to the end of the calculation period, any accrued but unpaid performance fee relating to those Unit classes is crystallised and paid to the Investment Manager at the last Valuation Day of the calculation period.

At the date of the report, a performance fee was recorded for the Sub-Fund and amounted to SEK 1,401,968.15.

Note 6 - Central administration costs

The Central Administration Agent is entitled to receive an administration fee consisting of a flat fee of EUR 25,000 p.a. plus a variable fee of maximum 0.04% p.a. which is payable monthly in arrears out of the Sub-Fund's assets.

The Central Administration Agent is further more entitled to receive out of the Sub-Fund's assets, in respect of the register and transfer agent function a further fee in accordance with Luxembourg customary banking practice.

Note 7 - Custodian Fees

The Custodian is also entitled to receive a supervisory fee of 0.0125% which is payable monthly in arrears out of the Sub-Fund's assets.

Note 8 - Subscription duty ("taxe d'abonnement")

The Fund is governed by Luxembourg law.

Pursuant to the legislation and regulations which are prevailing, the Fund is subject to an annual subscription duty ("*taxe d'abonnement*") of 0.05% which is payable quarterly and calculated on the basis of the net assets of the Sub-Fund on the last day of each quarter.

AGCM Fund

Notes to the financial statements (continued)

as at 31st March 2015

The rate of this tax is reduced to 0.01% of the value of the net assets for Compartments or Classes of Unit reserved for Institutional Investors.

According to Article 175 (a) of the amended Law of 17th December 2010, the net assets invested in Undertakings for Collective Investment already subject to the "*taxe d'abonnement*" are exempt from this tax.

Note 9 - Swing pricing

Under certain circumstances (for example, large volumes of deals) investment and/ or disinvestment costs may have an adverse effect on the Unitholders' interests in a Sub-Fund. In order to prevent this effect, called "dilution", the Management Company has the authority to allow for the Net Asset Value per Unit to be adjusted by effective dealing and other costs and fiscal charges which would be payable on the effective acquisition or disposal of assets in the relevant Sub-Fund if the net capital activity exceeds, as a consequence of the sum of all subscriptions, redemptions or conversions in such a Sub-Fund, such threshold percentage (the "Threshold") as may be determined from time to time by the Management Company, of the Sub-Fund's total net assets on a given Valuation Day.

Description of the swing pricing procedure:

If the net capital activity for a given Valuation Day leads to a net inflow of assets in excess of the Threshold in the relevant Sub-Fund, the Net Asset Value used to process all subscriptions, redemptions or conversions in such a Sub-Fund is adjusted upwards by the swing factor that shall be determined from time to time by the Management Company but will not exceed 2% of the relevant Net Asset Value.

If the net capital activity for a given Valuation Day leads to a net outflow of assets in excess of the Threshold in the relevant Sub-Fund, the Net Asset Value used to process all subscriptions, redemptions or conversions in such a Sub-Fund is adjusted downwards by the swing factor that shall be determined from time to time by the Management Company but will not exceed 2% of the relevant Net Asset Value.

There was no "Swing Pricing" applied for the Net Asset Value as at 31st March 2015 for the Sub-Fund.

Note 10 - Changes in investments

The statement of changes in investment portfolio for the period covered by the report is available free of charge upon request at the registered office of the Management Company of the Fund.
