If events have occurred which may have resulted in a material change of the Net Asset Value of such shares or units in such UCIs since the day on which the latest official Net Asset Value is calculated, the value of such shares or units may be adjusted in order to reflect, in the reasonable opinion of the Management Company, such change of value.

At the date of the report, the effective rate is of 1% for all issued classes of units.

The Investment Manager may in its absolute discretion waive charges and/ or fees and may rebate any fees payable to it to an investor or a distributor or to any other person or entity in the discretion of the Investment Manager.

Note 5 - Performance fee

The Investment Manager is entitled to receive a Performance Fee payable out of the assets of the Sub-Fund.

The Performance Fee is calculated annually. The Performance Fee is deemed to accrue on a daily basis as at each Valuation Date.

For Class SEK-R:

For each Calculation Period, the Performance Fee in respect of this Class is equal to 10% of the appreciation in the Net Asset Value per Unit of this Class during the Calculation Period above the Base Net Asset Value per Unit. The Base Net Asset Value per Unit is the greater of the Net Asset Value of that Unit at the time of issue of that Unit plus the Index hurdle rate for each Class of Units, as per the table below, and the highest Net Asset Value of that Unit achieved as of the end of any previous Calculation Period (if any) during which such Unit was in issue plus the Index hurdle rate. A Performance Fee is only accrued when the Net Asset Value per Unit is above the previous Base Net Asset Value per Unit increased by the prevailing hurdle rate.

Class of Units	Benchmark hurdle rate
Class - SEK R	OMRX T-Bill Index (Bloomberg Ticker: RXVX Index)

For the other Unit Classes:

For each Calculation Period, the Performance Fee in respect of each Unit is equal to 10% of the appreciation in the Net Asset Value per each Unit during the Calculation Period above the Base Net Asset Value per each Unit.

ATCM II

Notes to the financial statements (continued)

as at 31st March 2014

The Base Net Asset Value per each Unit is the greater of the Net Asset Value of that Unit at the time of issue of that Unit plus the applicable benchmark hurdle rate set out hereafter and the highest Net Asset Value of that Unit achieved as of the end of any previous Calculation Period (if any) during which such Unit was in issue plus the applicable benchmark hurdle rate. A Performance Fee is only accrued when the Net Asset Value per each Unit is above the previous Base Net Asset Value per each Unit increased by the prevailing hurdle rate. The Performance Fee in respect of each Calculation Period is calculated by reference to the Net Asset Value attributable to the Unit before making any deduction for accrued Performance Fees.

The applicable benchmark hurdle rate for each Unit Class is the following:

Class of Units	Benchmark hurdle rate
Class - SEK	OMRX T-Bill Index (Bloomberg Ticker: RXVX Index)
Class - EUR	EUR 1 Month Libor (Bloomberg Ticker: EE0001M Index)

The Performance Fee is normally payable in arrears within 30 days of the end of each Calculation Period. However, in the case of Units redeemed during a Calculation Period, the accrued Performance Fee in respect of those Units is normally payable within 30 days after the end of each Calculation Period.

If the Investment Management Agreement is terminated before the end of a Calculation Period, the Performance Fee in respect of the then current Calculation Period is calculated and paid as though the date of termination were the end of the relevant period.

If an investor subscribes for Units at a time when the Net Asset Value per Unit is other than the Peak Net Asset Value per Unit, certain adjustments are made to reduce inequities that could otherwise result to the Subscriber or the Investment Manager. The Peak Net Asset Value per Unit is the greater of the price at which the Units were issued on the expiry of the Initial Offering Period and the greater of the Net Asset Value per each Unit in effect immediately after the end of each Calculation Period in respect of which a Performance Fee was charged. The Peak Net Asset Value is adjusted at the Valuation Date with the applicable benchmark hurdle prorata temporis.

At the date of the report, a performance fee was recorded for the Sub-Fund and amounted to SEK 2,203,691.12.

Note 6 - Central administration cost

ATCM II

Notes to the financial statements (continued)
