INVESTMENT OBJECTIVE AND POLICIES

The Company may provide separate portfolios of assets designated as a "Sub-Fund" or "Sub-Funds", actively managed, with the purpose of achieving long term capital growth, within the investment restrictions described in Appendix A.

At the date hereof only Shares of Lancelot Ector-Master Fund are offered for subscription.

Master Fund

The Master Fund seeks to achieve positive inflation-adjusted capital growth (in terms of SEK) over time, with a low and conservative risk profile, from actively managed and diversified investments in mainly equities, bonds and other transferable debt securities.

The Sub-Fund may vary the proportion of these depending on its assessment of the potential of total return arising from such securities and of their diversification. Income is not a primary consideration of the investment.

Investments in UCITS or UCIs may not exceed 10% of the net assets of the Sub-Fund. The Sub-Fund may hold ancillary liquid assets. Its Net Asset Value per Share is expressed in SEK.

The Sub-Fund does not make use of any Efficient Portfolio Management techniques, nor enter into total return swaps or financial derivative instruments with similar characteristics and as such the Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse is currently not applicable. The Prospectus will be updated accordingly prior to the use of any such instruments or techniques.

Whilst using their best endeavours to attain the Company's investment objective in the Sub-Fund, the Directors cannot guarantee the extent to which such investment objective will be achieved. Thus the value of the Shares and the investment income therefrom may go up or down.

RISK MANAGEMENT PROCEDURES

In accordance with applicable laws and regulations, and in particular CSSF regulation No. 10-4 transposing Directive 2009/65/EC, CSSF circular 11/512, CSSF circular 12/546, the ESMA guidelines on risk measurement and the calculation of global exposure and counterparty risk for UCITS (ref.: ESMA/10-788) and the ESMA guidelines on risk management principles for UCITS (ref.: ESMA/09-178), the Management Company employs a risk-management process, which enables the Management Company to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the portfolio. The Management Company, on behalf of the Company will employ, if applicable, a process for accurate and independent assessment of the value of any OTC derivative instruments.

The risk profile of the Company is monitored taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

Unless otherwise provided for any Sub-Fund, the commitment approach is used to monitor and measure the global exposure of each Sub-Fund.

This approach measures the global exposure related solely to positions on financial derivative instruments under consideration of netting or hedging.

PROFILE OF THE TYPICAL INVESTOR / INVESTMENT

Master Fund is intended for long-term capital preservation savers.

Investors should consider their long-term investment goals and financial needs when making an investment decision about the Sub-Fund. As a consequence, the Sub-Fund is suitable for investors who can afford to set aside the capital invested for at least from one to three years.

RISK FACTORS

Prospective investors should carefully consider whether such investments are suitable for them in light of their own specific circumstances and financial resources.

Potential investors should consider the following risk factors before investing in the Company. Potential investors should also inform themselves of, and where appropriate consult their professional advisers, as to the tax consequences of subscription for buying, holding, exchanging, redeeming or otherwise disposing of Shares and merger situations under the law of their country of citizenship, residence or domicile.

GENERAL

Prospective investors should be aware that the investments of the Company are subject to market fluctuations and other risks inherent in investing in securities, such as market risk, credit risk, risk of default, liquidity risk, counterparty and settlement risk, as well as risks linked to interest rates and derivatives. There can be no assurance that any appreciation of value of investments will occur. The value of investments and the income derived therefrom may fall as well as rise and investors may not recoup the original amount invested in the Company. There is no assurance that the investment objective of the Company will actually be achieved.

The Net Asset Value of the Company and of any Sub-Fund may vary in value as a result of fluctuations in the value of the underlying assets and the income derived therefrom.

Investors are reminded that in certain circumstances their right to redeem Shares may be suspended.

Depending on an investor's currency of reference, currency fluctuations may adversely affect the value of an investment in the Company.

Specific risk factors applicable to the Sub-Fund Lancelot Ector - Master Fund:

Investment in securities

Investment in securities of issuers from different countries and denominated in different currencies offer potential benefits not available from investments solely in securities of issuers from a single country, but also involve certain significant risks that are not typically associated with investing in the securities of issuers located in a single country. Among the risks involved are fluctuations in currency exchange rates and the possible imposition of exchange control regulations of other laws or restrictions applicable to such investments.

Foreign exchange/currency risk

The Sub-Fund may invest its assets in securities denominated in currencies which will be different from the Sub-Fund's reference currency. The Sub-Fund will be exposed to foreign exchange rate fluctuations with respect to the currencies in which the Sub-Fund's investments are denominated. The Sub-Fund may therefore be exposed to a foreign exchange/currency risk and it may not be possible or practicable to hedge against the consequent foreign exchange/currency risk exposure.

Use of derivatives

The Sub-Fund may participate in both the on-exchange and OTC derivatives (excluding total return swaps or financial derivative instruments with similar characteristics) to hedge the returns from the underlying assets. Derivatives contracts may involve the Sub-Fund in long term performance or financial commitments, which may be magnified by leverage and changes in the market value of the underlying. Leverage means that the initial consideration for entering the transaction is considerably less than the face value of the subject matter of the

contract. If a transaction is leveraged a relatively small market movement will have a proportionately larger impact on the value of the investment to the Sub-Fund, and this can work against the Sub-Fund as well as for it.

There can be no assurance that the objective sought to be obtained from the use of the derivatives will be achieved.

INVESTMENT MANAGEMENT

The Management Company has delegated its function as investment manager to Lancelot Asset Management AB, Stockholm (the "Investment Manager") by an agreement dated 25 January 2017 (the "Investment Management Agreement").

The Investment Manager was incorporated on 10th October 1998 under the laws of Sweden for an unlimited duration with total net equity of 30 million SEK as at 31st December 2015. Its principal offices are at Nybrokajen 7, Stockholm, Sweden.

The Investment Manager will procure and supervise an investment program for the assets of each Sub-Fund consistent with its investment objectives, policies and restrictions.

The responsibility for making decisions to buy, sell or hold a particular security rests with the Investment Manager, subject to the overall responsibility of the Board of Directors of the Company and the Management Company.

In carrying out portfolio transactions for the Company, the Investment Manager will generally seek competitive price rates. Where investment is to be made in securities traded in over-the-counter markets, the Investment Manager will normally arrange for the orders to be executed with securities dealers who make markets in the securities involved, except in those circumstances where better prices and execution are available elsewhere.

The Investment Manager shall be entitled to delegate from time to time, at its sole discretion and responsibility and its own costs, the performance of whole or part of his services to any agent or person affiliated or non-affiliated with the Investment Manager as he thinks fit, provided that such delegations are approved in writing by the Management Company whose approval shall not be unreasonably withheld and by the Luxembourg Supervisory Authority.

In accordance with the powers granted to it under the Investment Management Agreement, and pursuant to a sub-investment management agreement dated 2 October 2014, the Investment Manager has, with the consent of both the Management Company and the Company sub-delegated to and appointed Excalibur Vårdepappersfond AB (the "Sub-Investment Manager") to provide investment management services for Lancelot Ector – Master Fund in relation to the portion of assets invested in debt securities and the Sub-Investment Manager has agreed to provide such sub-investment management services to the Lancelot Ector – Master Fund.

In consideration for its services, the Investment Manager shall be entitled to a fixed fee paid as Investment Management Fee to the Management Company on behalf of the Investment Manager (as described in section "Management Company, acting as Central Administration" below). A twelfth of this rate is being payable at the end of each month in arrears and based on the net assets of each Sub-Fund calculated on a daily basis during the relevant month.

In addition to this fixed fee, the Investment Manager is entitled to a performance fee paid out of the Sub-Fund's assets, at the rate of 15% in respect of the Lancelot Ector - Master Fund, of the amount by which the relevant Sub-Fund's total return, based on the Net Asset Value at the

beginning and at the end of the relevant year and after accrual of the fixed fee, outperforms on a year to year basis the agreed Benchmark return. The Benchmark return is in the case of the Lancelot Ector - Master Fund the higher of a) 0 percent and b) the twelve months' rate of interest interpolated between Swedish Treasury Bills and/or Swedish Government Bonds at 31st December of the prior year, as published in the financial media or any corresponding benchmark approved by the Board of Directors. The accrual and calculation of the performance fee is based on the average number of outstanding Shares during the financial year.

For a calendar year when the Sub-Fund underperforms the agreed Benchmark return no performance fee will be paid and the amount of the relative underperformance from that year shall remain relevant for coming years (as a "High- Water Mark. This means that at a forthcoming year with outperformance compared to the Benchmark return, no performance fee is paid until the amount of underperformance from previous year (s) is fully recovered.

The Investment Manager and/or Sub-Investment Manager(s) are authorized to effect transactions through brokers whereby the broker agrees to use a proportion of the commission earned on such transactions to discharge the broker's own costs or the costs of third parties in providing certain services to the Investment Manager and/or Sub-Investment Manager(s). DEPOSITARY

Depositary and paying agent

Pursuant to a depositary and paying agent services agreement dated 13 October 2016 (the "**Depositary Agreement**"), Skandinaviska Enskilda Banken S.A. has been appointed as depositary of the Company (the "**Depositary**"). The Depositary will also provide paying agent services to the Company.

Skandinaviska Enskilda Banken S.A. is a public limited company (société anonyme) under the laws of Luxembourg incorporated for an unlimited duration. Its registered and administrative offices are at 4, rue Peternelchen, L-2370 Howald, Luxembourg. It is licensed to engage in all banking operations under Luxembourg law.

The Depositary has been appointed for the safe-keeping of the assets of the Company which comprises the custody of financial instruments, the record keeping and verification of ownership of other assets of the Company as well as the effective and proper monitoring of the Company's cash flows in accordance with the provisions of the Law of 2010, as amended from time to time, and the Depositary Agreement.

In addition, the Depositary shall also ensure that (i) the sale, issue, repurchase, redemption and cancellation of Shares are carried out in accordance with Luxembourg law and the Articles of Incorporation; (ii) the value of the Shares is calculated in accordance with Luxembourg law and the Articles of Incorporation; (iii) the instructions of the Management Company or the Company are carried out, unless they conflict with applicable Luxembourg law and/or the Articles of Incorporation; (iv) in transactions involving the Company's assets any consideration is remitted to the Company within the usual time limits; and (v) the Company's incomes are applied in accordance with Luxembourg law and the Articles of Incorporation.

In carrying out its functions the Depositary acts honestly, fairly, professionally and independently and solely in the interest of the investors. The Depositary is on an ongoing basis analyzing, based on applicable laws and regulations as well as its conflict of interest policy potential conflicts of interests that may arise while carrying out its functions. It has to be taken into account that the Management Company and the Depositary are members of the same SEB group. Thus, both have put in place policies and procedures ensuring that they (i) identify all conflicts of interests arising from that link and (ii) take all reasonable steps to avoid those conflicts of interest. Where a conflict of interest arising out of the group link between the Management Company and the Depositary cannot be avoided, the Management Company or the Depositary will manage, monitor and disclose that conflict of interest in order to prevent adverse effects on the interests of the Company and of the investors.

When performing its activities, the Depositary obtains information relating to funds which could theoretically be misused (and thus raise potential conflict of interests issues) in relation to e.g. the interests of other clients of the SEB Group, whether engaging in trading in the same securities or seeking other services, particularly in the area of offering services competing with the interests of other counterparties used by the funds/fund managers, and the interests of the Depositary's employees in personal account dealings. Potential conflicts of interests in the

SEB Group can be further exemplified as not market equivalent pricing of the depositories' services and the undue influence in the management and board of directors of the funds/fund managers by the Depositary, and vice versa.

Consequently, to mitigate the potential conflicts of interest, it has been ensured that the activities of a depositary function are physically, hierarchically and systematically separated from other functions of the Depositary in order to establish information firewalls. Moreover, the depositary function has a mandate and a veto to approve or decline fund clients independent of other functions and has its own committees for escalation of matters connected to its role as a depositary, where other functions with potentially conflicting interests are not represented.

For further details on management, monitoring and disclosure of potential conflicts of interest please refer to Instruction for Handling of Conflicts of Interest in Skandinaviska Enskilda Banken S.A. which can be found on the following webpage:

http://sebgroup.lu/siteassets/about-seb/policies/sebsa_conflict_of_interest.pdf

In compliance with the provisions of the Depositary Agreement and the Law of 2010, as amended from time to time, the Depositary may, subject to certain conditions and in order to effectively conduct its duties, delegate part or all of its safe-keeping duties in relation to financial instruments that can be held in custody, duly entrusted to the Depositary for custody purposes, and/or all or part of its duties regarding the record keeping and verification of ownership of other assets of the Company to one or more delegate(s), as they are appointed by the Depositary from time to time.

In order to avoid any potential conflicts of interest, irrespective of whether a given delegate is part of the SEB Group or not, the Depositary exercise the same level of due skill, care and diligence both in relation to the selection and appointment as well as in the on-going monitoring of the relevant delegate. Furthermore, the conditions of any appointment of a delegate that is member of the SEB Group will be negotiated at arm's length in order to ensure the interests of the investors. Should a conflict of interest occur and in case such conflict of interest cannot be neutralized, such conflict of interest as well as the decisions taken will be disclosed to the investors and the Prospectus revised accordingly. An up-to-date list of these delegates can be found on the following webpage:

<http://sebgroup.lu/siteassets/corporations-and-institutions/global-custody-network.pdf>

Where the law of a third country requires that financial instruments are held in custody by a local entity and no local entity satisfies the delegation requirements of article 34bis, paragraph 3, lit. b) i) of the Law of 2010, as amended, the Depositary may delegate its functions to such local entity to the extent required by the law of that third country for as long as there are no local entities satisfying the aforementioned requirements.

In order to ensure that its tasks are only delegated to delegates providing an adequate standard of protection, the Depositary has to exercise all due skill, care and diligence as required by the Law of 2010, as amended, in the selection and the appointment of any delegate to whom it intends to delegate parts of its tasks and has to continue to exercise all due skill, care and diligence in the periodic review and ongoing monitoring of any delegate to which it has delegated parts of its tasks as well as of any arrangements of the delegate in respect of the matters delegated to it. In particular, any delegation is only possible when the delegate at all times during the performance of the tasks delegated to it segregates the assets of the Company from the Depositary's own assets and from assets belonging to the delegate in accordance with the Law of 2010, as amended. The Depositary's liability shall not be affected by any such delegation unless otherwise stipulated in the Law of 2010, as amended and/or the Depositary Agreement.

An up-to-date information regarding the Depositary, its duties and the conflicts of interest that may arise, any safekeeping functions delegated by the Depositary, the list of delegates and any conflicts of interests that may arise from such delegation, is available to the investors upon request at the registered office of the Management Company.

The Depositary is liable to the Company or its investors for the loss of a financial instrument held in custody by the Depositary and/or a delegate. In case of loss of such financial instrument, the Depositary has to return a financial instrument of an identical type or the corresponding amount to the Company without undue delay. In accordance with the provisions of the Law of 2010, as amended, the Depositary will not be liable for the loss of a financial instrument, if such loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

The Depositary shall be liable to the Company and to the investors for all other losses suffered by them as a result of the Depositary's negligent or intentional failure to properly fulfil its duties

in accordance with applicable law, in particular the Law of 2010, as amended, and/or the Depositary Agreement.

The Company and the Depositary may terminate the Depositary Agreement at any time by giving ninety (90) days' notice in writing. In case of a voluntary withdrawal of the Depositary or of its removal by the Company, the Depositary must be replaced at the latest within two (2) months after the expiry of the aforementioned termination notice by a successor depositary to whom the Company's assets are to be delivered and who will take over the functions and responsibilities of the Depositary. If the Management Company/Company does not name such successor depositary in time the Depositary may notify the CSSF of the situation. The Management Company/Company will take the necessary steps, if any, to initiate the liquidation of the Company, if no successor depositary bank has been appointed within two (2) months after the expiry of the aforementioned termination notice of ninety (90) days.

The Company reserves the right to reject any application in whole or in part in the light of market conditions prevailing on the financial markets, in which event the application moneys or the balance thereof will be returned to the applicant.

REDEMPTION OF SHARES

All redemption orders are made on the basis of the unknown Net Asset Value per Share. Redemption requests received by the Administrative Agent at or before 16:00 hours (Central European time) on a Valuation Day shall be executed at the Net Asset Value per Share of the relevant Class as calculated on the next Valuation Day. Requests received thereafter will be held over to the second Valuation Day following receipt of the redemption request, to be executed at prices ruling on that day. Shares will be cancelled on the Valuation Day.

Redemption requests must be accompanied, if issued, by the registered Share certificates in respect of the Shares, duly endorsed for redemption. A request duly made shall be irrevocable, except in case of and during any period of suspension or deferral of redemptions.

In case of redemption requests in excess of 10% of the Net Asset Value of the relevant Class of Shares during any period of seven consecutive Valuation Days, the Company may defer all such redemptions for a period of not more than seven consecutive Valuation Days, but always subject to the foregoing limits (see below). On such Valuation Days, such requests for redemption will be complied with in priority to later requests.

The price to be paid in respect of each Share tendered for redemption (the "Redemption Price") will be the Net Asset Value per Share.

The net Redemption Price is based on the Net Asset Value determined as of the next Valuation Day after the receipt by the Company of the redemption request on a Valuation Day at or before 16:00 hours (Central European time) and of the relevant Share certificates, if any. When there is a suspension of the calculation of the Net Asset Value or a deferral of redemptions, Shares to be redeemed on Valuation Days falling during the period of such suspension or deferral will be redeemed at the Net Asset Value per Share of the relevant Class calculated on the next Valuation Day following termination of such suspension and in the case of a deferral at the Net Asset Value per Share of the relevant Valuation Day, unless withdrawn in writing prior thereto.

Payments will ordinarily be made in the reference currency of the relevant Class, within three (3) Luxembourg bank business days after the relevant Valuation Day or on the date the Share certificate(s) (if issued) have been returned to the Company, if later.

The Company may redeem the residual shareholding of any shareholder, if compliance with a redemption or conversion request would result in an aggregate residual holding of less than 5,000 SEK. See also a description of certain compulsory redemption or merger procedures under the header "Termination and Merger of Sub-Funds or Classes of Shares" above.

The value of Shares at the time of their redemption may be more or less than their acquisition cost, depending on the market value of the assets held by the Sub-Fund at the time of acquisition and redemption. Any Shares redeemed shall be cancelled.

The Redemption Price shall be available on demand at the registered office of the Company, the Sub-Administrative Agent, the Global Distributor and/or any other sub-distributor/ sub-placement agent (if any).

CONVERSION OF SHARES

Holders of Shares of Class B of a Sub-Fund will be entitled to convert (switch) some or all of their holding into Shares of the same Class corresponding to another Sub-Fund of the Company (if any) on any day which is a Valuation Day for both relevant Sub-Funds, by making application to the Company's Central Administration in Luxembourg or through the Global Distributor or the relevant distributor or sub-distributor by facsimile or email, confirmed in writing and which must include the following information: The name of the holder and, if possible, his reference number on any Share confirmation which he may have received earlier, the number and Class of Shares of each Sub-Fund to be converted and the proportion or value of those Shares to be allocated to each new Sub-Fund (if more than one). Furthermore, conversions may be done from Dividend Shares into Accumulation Shares and vice-versa.

It should be noted that conversion of Shares represented by a formal Share certificate cannot be effected until the Company is in receipt of the relevant Share certificate(s) (duly renounced) and that Shares of Class B may be converted only into Shares of the same Class B of another Sub-Fund.

All conversion orders are made on the basis of the unknown Net Asset Value per Share. Conversion requests received by the Sub-Administrative Agent at or before 16:00 hours (Central European time) on a Valuation Day shall be executed at the Net Asset Value per Share of the relevant Class as calculated on the next Valuation Day. Requests received thereafter will be held over to the second Valuation Day following the receipt of the conversion request, to be executed at prices ruling on that day.

The basis of conversion is related to the respective Net Asset Values per Share of the Classes concerned. The Sub-Administrative Agent will determine the number of Shares into which a shareholder wishes to convert his existing Shares in accordance with the following formula:

$$A = \frac{B \times C}{D}$$

- A = the number of Shares (and in the case of registered Shares, a fraction to one hundredth of a Share) in the same Class B of the new Sub-Fund
- B = the number of Shares in the original Sub-Fund
- C = the Redemption Price per Share in the original Sub-Fund,
- D = the Net Asset Value per Share of the new Sub-Fund

The Company will provide an account-confirmation or details of the conversion to the shareholder concerned and issue new Share certificates, if so requested by him.

DISTRIBUTION OF SHARES

The Management Company has by Placement & Distribution Agreement appointed Lancelot Asset Management AB, with registered office at Nybrokajen 7, PO Box 16172, S-10323 Stockholm, Sweden to act as Global Distributor for the Shares. Subject to Lancelot Asset Management AB's approval, further agreements may be concluded by the Global Distributor with other Distributors/ Placement Agents, who will assist in the offer and sale of Shares, in accordance with all applicable laws. These agreements shall all be concluded for an unlimited duration.

MARKET TIMING, LATE TRADING AND OTHER ILLEGAL TRADING PRACTICES

The Company will take measures it deems adequate to prevent unlawful trading practices such as market timing and late trading of Shares of any Sub-Fund. To that effect, deadlines and cut-off times for subscriptions and redemptions mentioned in this Prospectus shall be strictly enforced.

The Company will ensure that each application for Shares in a Sub-Fund is processed in accordance with this Prospectus and traded at the applicable Net Asset Value per Share. The Company may refuse to process applications if there is a suspicion that such applications might be illegal or abusive.

ANTI-MONEY LAUNDERING AND FIGHT AGAINST FINANCING OF TERRORISM

The Company has delegated to the Management Company the administration in respect of all the Sub-Funds. Pursuant to such delegation, the Management Company or its delegates will monitor the anti-money laundering procedures that have been put in place. Pursuant to international rules and Luxembourg laws and regulations and circulars of the supervising authority (comprising, but not limited to, the law of 12th November 2004 on the fight against money laundering and financing of terrorism, as amended) as well as circular of the supervising authority, obligations have been imposed on all professionals of the financial sector to prevent the use of UCIs for money laundering and financing of terrorism purposes. As a result of such provisions, the registrar agent of a Luxembourg UCI must in principle ascertain the identity of the subscriber in accordance with Luxembourg laws and regulations. Accordingly, the Registrar and Transfer Agent may require subscribers to provide acceptable proof of identity and for subscribers, who are corporate or legal entities, an extract from the registrar of companies or articles of incorporation or other official documentation. In any case, the Registrar and Transfer Agent may require, at any time, additional documentation relating to an application for Shares.

Such information shall be collected for compliance reasons only and shall not be disclosed to unauthorised persons.

In case of delay or failure by an applicant to provide the documents required, the application for subscription (or, if applicable for redemption) will not be accepted. Neither the Company nor the Registrar and Transfer Agent have any liability for delays or failure to process deals as a result of the applicant providing no or only incomplete documentation. Shareholders may be

requested to provide additional or updated identification documents from time to time pursuant to ongoing client due diligence requirements under relevant laws and regulations.

NET ASSET VALUE DETERMINATION

The net asset value of the Company's assets (the "Net Asset Value") and the Net Asset Value per Share of each Sub-Fund will be determined in the relevant Reference Currency, at present in SEK for Lancelot Ector - Master Fund, on every Bank Business Day on which the Net Asset Value is calculated (a "Valuation Day"), except in case of a suspension as described below.

The Net Asset Value per Share of each Sub-Fund will be calculated in respect of any Valuation Day by valuing the total relevant net assets of the relevant Sub-Fund, being the market value of its assets less its liabilities, divided by the number of the relevant Shares of the Class B and category (Accumulation or Dividend Shares). The Net Asset Value per Share of the same categories of Class B shall be identical in respect of each relevant Sub-Fund, but shall differ for the respective Dividend Shares and Accumulation Shares due to the effect of distributing respectively accumulating net annual results of such Sub-Funds.

The value of the assets of each Class of Shares of each Sub-Fund is determined as follows:

a) Securities admitted to official listing on a stock exchange or which are traded on another regulated market which operates regularly and is recognised and open to the public within the EU or the OECD Member States are valued on the base of the last known sales price. If the same security is quoted on different markets, the quotation of the main market for this security will be used. If there is no relevant quotation or if the quotations are not representative of the fair value, the evaluation will be done in good faith by the Board of Directors or its delegate with a view to establishing the probable sales prices for such securities.

b) Non-listed securities are valued on the base of their probable sales price as determined in good faith by the Board of Directors and its delegate.

c) Liquid assets are valued at their nominal value plus accrued interest.

d) Time deposits may be valued at their yield value if a contract exists between the Company and the Depositary stipulating that these time deposits can be withdrawn at any time and their yield value is equal to the realized value.

e) All assets denominated in a different currency than the respective Sub-Fund's currency are converted into this respective Sub-Fund's currency at the exchange rates used by SEB Fund Services S.A. for the respective Valuation Day.

f) Financial instruments which are not traded on the futures exchanges but on a regulated market are valued at their settlement value, as stipulated by the Company's Board of Directors in accordance with generally accepted principles, taking into consideration the principles of proper accounting, the customary practices in line with the market, and the interests of the shareholders, provided that the above-mentioned principles correspond with generally accepted valuation regulations which can be verified by the independent auditors.

gh) Units or shares of UCI(TS) are valued at the last available net asset value.

h) In case of extraordinary circumstances, which make the valuation in accordance with the above-mentioned criteria impossible or improper, the Company is authorised to temporarily follow other valuation regulations in good faith and which are according to the verifiable valuation regulations laid down by the independent auditors in order to achieve a proper valuation of the respective Sub-Fund's assets.

The Net Asset Value per Share of each Class as certified by a Director or by an authorised officer or representative of the Company shall be conclusive, except in the case of manifest error.

The Company shall include in the financial reports its consolidated accounts expressed in SEK.

The issue and redemption prices may be obtained at the registered office of the Company and from the Distributors/ Placement Agents and any sub-distributor/ sub-placement agent (the name(s) and address(es) of which may be obtained from the Management Company).

SUSPENSION OF THE CALCULATION OF NET ASSET VALUE AND OF ISSUE, REDEMPTION AND CONVERSION OF SHARES

The Board of Directors may suspend the calculation of the Net Asset Value of any Class of Shares and may suspend the issue, redemption and conversion of Shares of the relevant Sub-Fund:

- (a) during any period (other than ordinary holidays or customary week-end closings) when any market or stock exchange, which is the main market or stock exchange for a significant part of a Sub-Fund's investments, or in which trading thereon is restricted or suspended;
- (b) during any period when an emergency exists as a result of which it is impossible to dispose of investments which constitute a substantial portion of the assets of a Sub-Fund; or it is impossible to transfer moneys involved in the acquisition or disposition of investments at normal rates of exchange; or it is impossible for the Company to fairly determine the value of any assets in a Sub-Fund; or
- (c) during any breakdown in the means of communication normally employed in determining the price of any of the relevant Sub-Fund's investments or of current prices on any stock exchange; or
- (d) when for any reason the prices of any investments owned by the Sub-Fund cannot be reasonably, promptly or accurately ascertained; or
- (e) during any period when remittances of moneys which will or may be involved in the purchase or sale of any of the Sub-Fund's investments cannot, in the opinion of the Board of Directors, be carried out at normal rates of exchange; or
- (f) in the event of the publication (i) of the convening notice to a general meeting of shareholders at which a resolution to wind up the Company or a Sub-Fund is to be proposed, or of the decision of the Board of Directors to wind up one or more Sub-Funds, or (ii) to the extent that such a suspension is justified for the protection of the shareholders, of the notice of the general meeting of shareholders at which the merger of the Company or a Class is to be proposed, or of the decision of the Board of Directors to merge one or more Classes; or
- (g) where in the opinion of the Board of Directors, circumstances which are beyond the control of the Board of Directors make it impracticable or unfair vis-à-vis the shareholders to continue trading the Shares or in any other circumstance or circumstances where a failure to do so might result in the Company or its shareholders incurring any liability to taxation or suffering other pecuniary disadvantages or other detriment to which the Company or its shareholders might not otherwise have suffered.

Any suspension of the determination of the Net Asset Value will be notified to the Luxembourg Supervisory Authority and, if the Shares are distributed in other member states of the European Union, to the competent authorities of those member states. Any suspension shall also be notified to the shareholders requesting subscription, redemption or conversion of their Shares during the period of suspension.

Fees applicable to one Class of Shares may differ from the fees applicable to other Classes of Shares.

The following fees and other expenses will be borne by each Sub-Fund as follows:

- the Administration Fee (including the Depositary Fee), as set out in the section "Management Company, Acting As Central Administration";

Luxembourg: Shareholders are not subject to any tax on capital gains, income, gift estate, inheritance or other tax in Luxembourg (except for shareholders domiciled, resident or having a permanent establishment in Luxembourg and certain former residents of Luxembourg).

General:

The receipt of dividends (if any) by shareholders, the redemption or transfer of Shares and any distribution on a winding-up of the Company may result in a tax liability for the shareholders according to the tax regime applicable in their various countries of residence, citizenship or domicile. Shareholders resident in or citizens of certain countries which have anti-offshore fund legislation may have a current liability to tax on the undistributed income and gains of the Company.

The information set out above is a summary of those tax issues which could arise in the Grand Duchy of Luxembourg and does not purport to be a comprehensive analysis of the tax issues which could affect a prospective subscriber. It is expected that shareholders may be resident for tax purposes in many different countries. Consequently, no attempt is made in this Prospectus to summarise the tax consequences for each prospective investor of subscribing, converting, holding, redeeming or otherwise acquiring or disposing of Shares in the Company. These consequences will vary in accordance with the law and practice currently in force in a shareholder's country of citizenship, residence, domicile or incorporation and with his or her personal circumstances.

Investors should ascertain from their professional advisers the consequences of them acquiring, holding, redeeming, converting, transferring or selling Shares under the laws of the jurisdictions to which they are subject, including the tax consequences and any foreign exchange control requirements.

The Directors, the Company and each of the Company's agents shall have no liability in respect of the individual tax affairs of shareholders.

Common reporting standard ("CRS")

With a mandate by the G8/G20 countries the OECD has developed a common reporting standard ("CRS") to achieve a comprehensive and multilateral automatic exchange of information ("AEOI") in the future on a global basis. The CRS will require Luxembourg financial institutions to identify financial assets holders and establish if they are fiscally resident in countries with which Luxembourg has a tax information sharing agreement. Luxembourg financial institutions will then report financial account information of the assets holder to the Luxembourg tax authorities, which will thereafter automatically transfer this information to the competent foreign tax authorities on a yearly basis. Shareholders may therefore be reported to the Luxembourg and other relevant tax authorities under the applicable rules.

On this basis, a Council Directive 2014/107/EU amending the Council Directive amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (the "Euro-CRS Directive") has been adopted on 9 December 2014 in order to implement the CRS among the EU Member States. Under the Euro-CRS Directive, the first AEOI must be applied by 30 September 2017 within the limit of the EU Member States for the data relating to calendar year 2016.

On 10 November 2015, the Council of the European Union repealed the EUSD in order to eliminate the overlap with the Euro-CRS Directive. EU member states will be required to implement an automatic exchange of information as provided for by the Euro-CRS Directive effective as from 1 January 2016 (and in the case of Austria as from 1 January 2017).

In addition, Luxembourg tax authorities signed the OECD's multilateral competent authority agreement ("Multilateral Agreement") to automatically exchange information under the CRS.

Under the law of 18 December 2015 implementing the EURO-CRS Directive, the first exchange of information is applied by 30 September 2017 for information related to the year 2016. Accordingly, the Company is committed as of 1 January 2016 to run additional due diligence process on its Shareholders and to report the identity and residence of financial

account holders (including certain entities and their controlling persons), account details, reporting entity, account balance/value and income/sale or redemption proceeds to the local tax authorities of the country of residency of the foreign investors to the extent that they are resident of another EU Member State or of a country for which the Multilateral Agreement is in full force and applicable.

Shareholders should consult their professional advisors on the possible tax and other consequences with respect to the implementation of the CRS.

Foreign Account Tax Compliance

The Hiring Incentives to Restore Employment Act (the "Hire Act") was signed into US law in March 2010. It includes special provisions laid down in the Foreign Account Tax Compliance Act, generally known as "FATCA". The intention of FATCA is that details of US investors holding assets outside the US will be reported by financial institutions to the Internal Revenue Service (IRS), as a safeguard against US tax evasion.

This regime will become effective in phases between 1 July 2014 and 15 March 2018. Based on the Treasury Regulations §1.1471-§1.1474 issued on 17 January 2013 (the "Treasury Regulations") the Company is a "Financial Institution". As a result of the Hire Act, and to discourage non-US Financial Institutions from staying outside this regime, on or after 1 July 2014, a Financial Institution that does not enter and comply with the regime will be subject to a US withholding tax of 30% on gross proceeds as well as on income from the US and, on or after 1 January 2017, also potentially on non-US investments.

Luxembourg has entered into a Model I Intergovernmental Agreement ("IGA") with the United States. Under the terms of the IGA, the Company will be obliged to comply with the provisions of FATCA under the terms of the IGA and under the terms of Luxembourg legislation implementing the IGA (the "Luxembourg IGA legislation"), rather than under the US Treasury Regulations implementing FATCA.

In order to protect Shareholders from the effect of any penalty withholding, it is the intention of the Company to be compliant with the requirements of the FATCA regime and hence, qualify as a so-called "participating financial institution" as defined in the IGA.

The Company qualifies as a so-called "sponsored financial institution" as defined in the IGA. The Sub-Administrative Agent qualifies as a so-called "sponsoring financial institution". The Sub-Administrative Agent agrees to sponsor the Company for the purpose and within the meaning of the IGA. The Company intends not to register with the IRS and intends to be so-called "non-reporting sponsored financial institutions" within the meaning of the IGA. In case the Company would be subject to reporting obligations under the FATCA regulation, the Sub-Administrative Agent will register the Company as its sponsoring entity with the IRS and hence, the Sub-Administrative Agent will comply as set out in article 2 and 4 as well as Annex II, Chapter IV, section A. 3 of the IGA in due time (i.e. not later than 90 (ninety) days after the reportable event has first been identified) with all due diligence, withholding, registration and reporting obligations on behalf of the Company regarding certain holdings by and payments made to (a) certain US investors, (b) certain US controlled foreign entity investors and (c) non-US financial institution investors that do not comply with the terms of the Luxembourg IGA legislation. Further, the Sub-Administrative Agent will perform any requirements that the Company would have been required to perform if it were a reporting Luxembourg financial institution as defined in the IGA. Under the Luxembourg IGA, such information will be onward reported by the Luxembourg tax authorities to the IRS under the general information exchange provisions of the US-Luxembourg Income Tax Treaty. The Sub-Administrative Agent is required to monitor its own and the Company's status as being a participating financial institution and a non-reporting entity on an ongoing basis and has to ensure that the Sub-Administrative Agent and the Company meet the conditions for such status over the time.

In cases where investors invest in the Company through an intermediary or a distributor, investors are reminded to check whether such intermediary is FATCA compliant and hence, qualifies as a participating financial institution as defined in the IGA. In case any of the Company's distributor should change its status as participating financial institution, such distributor will notify the Management Company within ninety (90) days from the change in status of such change and the Management Company is entitled a) to redeem all Shares held

through such distributor, b) to convert such Shares into direct holdings of the Company, or c) to transfer such Shares to another nominee within six (6) months of the change in status. Further, any agreement with a distributor can be terminated in case of such change in status of the distributor within ninety (90) days of notification of the distributor's change in status.

Although the Company and the Management Company will attempt to satisfy any obligations imposed on it to avoid the imposition of the US withholding tax, no assurance can be given that the Company and the Management Company will be able to satisfy these obligations. If the Company becomes subject to a withholding tax as a result of the FATCA regime, the value of the Shares held by the Shareholders may suffer material losses.

Other jurisdictions currently are in the process of adopting tax legislation concerning the reporting of information. The Company also intends to comply with such other similar tax legislation that may apply to the Company, although the precise requirements are not fully known yet. As a result, the Company may need to seek information about the tax status of investors under the laws of such jurisdictions for disclosure to the relevant governmental authorities.

If you are in any doubt, you should consult your tax advisor, stockbroker, bank manager, solicitor, accountant or other financial adviser regarding the possible implications of FATCA on an investment in the Company.

MEETINGS AND REPORTS AND INFORMATION TO SHAREHOLDERS

The annual general meeting of shareholders of the Company will be held in Luxembourg on the last Friday in April in each year, (or if such day is a legal holiday in Luxembourg, on the next following bank business day in Luxembourg). Other general meetings or special Class meetings of shareholders may be held at such time and place as are indicated in the notices of such meetings. Notices of general meetings are given in accordance with Luxembourg law and, to the extent legally necessary, by publication in the Luxembourg Official Gazette (the "Mémorial") in Luxembourg, in a Luxembourg newspaper and in such other newspapers as the Directors may determine. Notices will specify the place and time of the meeting, the conditions of admission, the agenda, the quorum and voting requirements.

Other notices shall be given by publication in a Luxembourg newspaper and in such other newspapers as the directors may determine in the relevant countries where Shares are publicly offered for sale.

Matters pertaining to or modifying the rights of one or several Sub-Funds in particular will be submitted to separate Class meetings, which will be convened according to the same rules and submitted to the same quorum and majority requirements as general meetings of shareholders, provided that decisions on a merger among two or more Sub-Funds of the Company or a merger of a Sub-Fund into another UCITS (whether established in Luxembourg or another Member State and whether such UCITS is incorporated as a company or is a contractual type fund) will, in such cases where prior consent by a resolution of the relevant Classes is required, be validly resolved at a Class meeting duly convened which may be held without quorum and resolve the merger at a simple majority of the Shares present or represented (see "Termination and Merger of Sub-Funds or Classes of Shares").

Financial periods will end on 31st December in each year. The annual report containing the audited consolidated financial accounts of the Company in respect of the preceding financial period and the accounts of the Company will be made available at its registered office at least 8 days before the annual general meeting. Unaudited semi-annual reports for the period ending 30th June will be made available within two months of the relevant date. Copies of all financial reports will be available at the registered office of the Company and from the Global Distributor and the Placement and Distribution Agent in Sweden and in Luxembourg.

Those Directors who are not employees of the SEB Group may each receive an annual fee out of the assets of the Company, which shall be approved or ratified by the Shareholders. The actual fees paid will be disclosed in the semi-annual and annual reports of the Company.

Conflicts of interest

The Board of Directors, the Management Company, the Investment Manager, the Depositary, and the other service providers of the Company, and/or their respective affiliates, members, employees or any person connected with them may be subject to various conflicts of interest in their relationships with the Company.

The Board of Directors has adopted and implemented a conflicts of interest policy in accordance with its Code of Conduct.

The Management Company, the Company, the Investment Manager, and the Depositary have adopted and implemented a conflicts of interest policy and have made appropriate organisational and administrative arrangements to identify and manage conflicts of interests so as to minimise the risk of the Company's interests being prejudiced, and if they cannot be avoided, ensure that the Company's investors are treated fairly.

The Management Company, the Depositary and certain distributors are part of the SEB Group (the "Affiliated Person").

The Affiliated Person is a worldwide, full-service private banking, investment banking, asset management and financial services organization and a major participant in the global financial markets. Potential conflicts of interest or duties may arise because the Affiliated Person may have invested directly or indirectly in the Company. The Affiliated Person could hold a relatively large proportion of shares in the Company. Furthermore, a potential conflict may arise because the Depositary is related to a legal entity of the Affiliated Person which provides other products or services to the Company.

In the conduct of its business the Management Company and the Affiliated Person's policy is to identify, manage and where necessary prohibit any action or transaction that may pose a conflict between the interests of the Affiliated Persons' various business activities and the Company or its investors. The Affiliated Person, as well as the Management Company strive to manage any conflicts in a manner consistent with the highest standards of integrity and fair dealing. For this purpose, both have implemented procedures that shall ensure that any business activities involving a conflict which may harm the interests of the Company or its investors, are carried out with an appropriate level of independence and that any conflicts are resolved fairly. Notwithstanding its due care and best effort, there is a risk that the organizational or administrative arrangements made by the Management Company for the management of conflicts of interest are not sufficient to ensure with reasonable confidence, that risks of damage to the interests of the Company or its shareholders will be prevented. In such case these non-neutralized conflicts of interest as well as the decisions taken will be reported to investors in an appropriate manner (e.g. in the notes to the financial statements of the Company). Respective information will also be available free of charge at the registered office of the Management Company.

The Organisation and exercise of voting rights' policy is available, free of charge, upon request at the registered office of the Management Company and on the Website of the Management Company.

Preferential treatment of investors

Shareholders are being given a fair treatment by ensuring that they are subject to the same rights and, as the case may be, the same obligations vis-à-vis the Company (as such rights are obligations notably result from the Articles and this Prospectus) as those to which other Shareholders, having invested in, and equally or similarly contributed to, the same class of Shares, are subject to. Notwithstanding the foregoing paragraph, it cannot be excluded that a Shareholder be given a preferential treatment in the meaning of, and to the widest extent, allowed by, the Articles. Whenever a Shareholder obtains preferential treatment or the right to obtain a preferential treatment, a description of that preferential treatment, the type of Shareholders who obtained such preferential treatment and, where relevant, their legal or economic links with the Company or the Management Company will be made available at the registered office of the Management Company subject the same limits required by the Law.

Complaints' handling

Information relating to the complaints' handling procedure will be made available to investors, free of charge, upon request at the registered office of the Management Company and on the Website of the Management Company.

Remuneration Policy

The Management Company has implemented a remuneration policy, which is reviewed at least annually, that is designed to encourage good performance and behavior, and seeks to achieve a balanced risk-taking that goes in line with Shareholders' expectations.

In SEB Group, there is clear distinction between the criteria for setting fixed remuneration (e.g. base pay, pension and other benefits) and variable remuneration (e.g. short- and long-term variable remuneration). The individual total remuneration corresponds to requirements on task complexity, management and functional accountability and is also related to the individual's performance.

SEB Group provides a sound balance between fixed and variable remuneration and aligns the payout horizon of variable pay with the risk horizon. This implies that certain maximum levels and deferral arrangements apply for different categories of employees.

Details of the up-to-date remuneration policy are available to investors, free of charge, upon request at the registered office of the Management Company, and on the Website of the Management Company.

The policy shall secure that remuneration is in line with the business strategy, objectives, values and long term interest of the Shareholders, and includes measures to avoid conflicts of interests.

The assessment process of performance is based on the longer term performance of the Company and its investment risks and the actual payment of performance-based components of remuneration is spread over the same period.

The remuneration policy is available on http://sebgroupp.com/siteassets/corporations_and_institutions/our_services/transaction_banking/for_institutional_clients/fund_services_and_fund_execution/remuneration-policy-fund-services.pdf for SEB Fund Services S.A.

Money Market Instruments other than those dealt in on a Regulated Market or on an Other Regulated Market, to the extent that the issuer or the issuer of such instruments is itself regulated for the purpose of protecting investors and savings, and provided that such instruments are either:

- issued or guaranteed by a central, regional or local authority, a central bank of a Member State, the European Central Bank, the European Union or the European Investment Bank, an Other State or, in case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or

2) Units of UCITS and / or other UCIs within the meaning of Directive 2009/65/EC, whether organized under the jurisdiction of a Member State or Another State, provided that the following cumulative conditions are met:

- such other UCIs are authorized under laws which provide that they are subject to supervision considered by the Luxembourg Supervisory Authority to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured,
- no more than 10% of the UCITS or the other UCI assets, whose acquisition is contemplated, can be invested in aggregate in units of other UCITS or other UCIs,
- the level of protection for unitholders in such other UCIs is equivalent to that provided for unitholders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending and uncovered sales of Transferable Securities and Money Market Instruments are equivalent to the requirements of the Directive 2009/65/EC,
- the other UCIs issue half-yearly and annual reports which contain at least assets and liabilities, income and operations statements for the reporting period.

3) Deposits. Deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than twelve (12) months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in Another State, provided that it is subject to prudential rules considered by the Luxembourg Supervisory Authority as equivalent to those laid down in EU law.

4) Financial derivative instruments, i.e. in particular options, futures, including equivalent cash-settled instruments, dealt in on a Regulated Market or on Another Regulated Market and/or financial derivative instruments traded over-the-counter (“OTC derivatives”), provided that the following cumulative conditions are met :

- the underlying (notional) asset of the derivative instrument must be an investment authorized for the relevant Sub-Fund under these guidelines or consist of contracts on stock exchange indices, foreign exchange or interest rates,
- the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the Luxembourg Supervisory Authority,
- the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and that the Company can at its own initiative and at any time sell, liquidate or close any outstanding position by an offsetting transaction at current fair market value.

No Sub- Fund will make a use of total return swaps or financial derivative instruments with similar characteristics.

Without prejudice to the limits set forth hereunder the limits set forth in (1) are raised to a maximum of 20% for investments in shares and/or bonds issued by the same body when the aim of the Fund’s investment policy is to replicate the composition of a certain stock or bond index which is recognised by the CSSF, on the following basis:

- the composition of the index is sufficiently diversified;
- the index represents an adequate benchmark for the market to which it refers;
- it is published in an appropriate manner.

The limit of 20% is raised to 35% where that proves to be justified by exceptional market conditions in particular in Regulated Markets where certain Transferable Securities or Money Market Instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

B. However, each Sub-Fund may:

- 1) Invest up to 10% of its net assets in Transferable Securities and Money Market Instruments other than those referred to above.
- 2) Hold cash and cash equivalents on an ancillary basis; such restriction may exceptionally and temporarily be exceeded if the Board of Directors considers this to be in the best interest of the shareholders.
- 3) Borrow up to 10% of its net assets, provided that such borrowings are made only on a temporary basis. Collateral arrangements with respect to the writing of options or the purchase or sale of forward or futures contracts are not deemed to constitute “borrowings” for the purpose of this restriction.

C. In addition, the Company shall comply in respect of the net assets of each Sub-Fund with the following investment restrictions per single issuer:

RISK DIVERSIFICATION RESTRICTIONS

(A) In accordance with the principle of risk diversification, each Sub-Fund will invest no more than 10% of its net assets in transferable securities or money market instruments issued by the same issuing body. Each Sub-Fund may not invest more than 20% of its net assets in deposits made with the same body.

The risk exposure to a counterparty of each Sub-Fund in an OTC derivative transaction may not exceed 10% of its net assets when the counterparty is a credit institution referred to under A. 4) above, or 5% of its net assets in the other cases.

Moreover, the total value of the transferable securities and money market instruments held by the Sub-Fund in the issuing bodies in each of which it invests more than 5% of its net assets must not exceed 40% of the value of its net assets. This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.

Notwithstanding the limits laid down in the first paragraph hereof, the Sub-Fund may not combine

- investments in transferable securities or money market instruments issued by,
- deposits made with and/or,
- exposures arising from OTC derivatives transactions undertaken with

a single body in excess of 20% of its net assets.

(B) The following exceptions can be made:

- (a) The aforementioned limit of 10% can be raised to a maximum of 25% for certain debt securities if they are issued by credit institution whose registered office is situated in an EU member state and which is subject, by virtue of law, to particular public supervision for the purpose of protecting the holders of such debt securities. In particular, the amounts resulting from the issue of such debt securities must be invested, pursuant to the law in assets which sufficiently cover, during the whole period of validity of such debt securities, the liabilities arising therefrom and which are assigned to the preferential repayment of capital and accrued interest in the case of default by the issuer. If the Sub-Fund invests more than 5% of its net assets in such debt securities as referred to above and issued by the same issuer, the total value of such investments may not exceed 80% of the value of the Sub-Fund's net assets.
- (b) The aforementioned limit of 10% can be raised to a maximum of 35% for transferable securities or money market instruments issued or guaranteed by an EU member state, by its local authorities, by a non EU member state or by public international bodies of which one or more EU member states are members.

The transferable securities referred to in exceptions (a) and (b) are not included in the calculation of the limit of 40% laid down above.

The limits stated under (A) and (B), above, may not be combined and, accordingly, investments in transferable securities or money market instruments issued by the same body or in deposits or derivatives instruments made with this body in accordance with (A) and (B), may not, in any event, exceed a total of 35% of the Sub-Fund's net assets.

Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with recognised international accounting rules are regarded as a single body for the purpose of calculating the limits contained in the present section "Risk Diversification".

The Company may invest in aggregate up to 20% of its net assets in transferable securities and money market instruments with the same group.

(C) Notwithstanding what is provided for under (A) and (B) above, where the Sub-Fund has invested in accordance with the principle of risk spreading in transferable securities and/or money market instruments issued or guaranteed by a Member State of the European Union, by its local authorities, a non-European Union Member State as acceptable by the CSSF, including but not limited to the OECD member states or Singapore or Brazil or by public international bodies of which one or more Member States of the European Union are members, the Sub-Fund is authorised to invest up to 100% of its net assets in such securities and/or money market instruments, provided that the Sub-Fund holds securities and/or money market instruments from at least six

different issues and securities and/or money market instruments from one issue do not account for more than 30% of its total net assets.

Bank Deposits

- (1) A Sub-Fund may not invest more than 20% of its net assets in deposits made with the same body.

Derivative Instruments

- (2) The risk exposure to a counterparty in an OTC derivative transaction may not exceed 10% of the Sub-Fund's net assets when the counterparty is a credit institution referred to under A (3) above or 5 % of its net assets in other cases.
- (3) Investment in financial derivative instruments shall only be made provided that the exposure to the underlying assets does not exceed in aggregate the investment limits allowed for such underlying assets. Investments in index-based financial derivative instruments need not be consolidated with any investments in underlying securities for the purpose of complying with restrictions on Transferable Securities and Money Market Instruments listed above.
- (4) When a Transferable Security or Money Market Instrument embeds a derivative, the latter must be taken into account for the purpose of ensuring that the global exposure relating to derivative instruments does not exceed the total Net Asset Value of the Sub-Fund.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions.

Units of Open-Ended Funds

- (5) No Sub-Fund may invest more than its net assets in the units of a single UCITS or another UCI. When the Sub-Fund invests in the units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the Management Company or by any other company with which the management of the Company is related by common management or control, or by a substantial direct or indirect holding, such other UCITS and /or other UCIs may not charge subscription or redemption fees on account of the Sub-Fund's investment in the units of such other UCITS and/ or other UCIs. The maximum rates of management fees charged both to the Sub-Fund itself and to the UCITS and/or UCIs in which it invests will be disclosed in the Company's annual report.

Unless otherwise specified at Sub-Fund level investments made in units of UCIs other than UCITS may not in aggregate exceed 30 % of the net assets of a Sub-Fund.

Combined limits

- (6) Notwithstanding the individual limits laid down in (1), (8) and (9) above, a Sub-Fund may not invest in aggregate more than 20% of its net assets in:
 - Transferable Securities or Money Market Instruments issued by and/or
 - deposits made with, and/or
 - OTC derivative transactions contracted with

the same body. For the purpose of these constraints, each Sub-Fund is a separate entity.

INFLUENCE ON COMPANIES THE COMPANY IS INVESTED IN

- (7) No Sub-Fund may acquire such amount of voting shares which would allow the Company to exercise a significant influence over the management of the issuer.
- (8) Neither any Sub-Fund nor the Company as whole may acquire (i) more than 10% of the outstanding non-voting shares of any one issuer; (ii) more than 10% of the outstanding debt securities of any one issuer; (iii) more than 10% of the Money Market Instruments of any one issuer; or (iv) more than 25% of the outstanding shares or units of any one UCI and/or UCITS. The limits set forth in (ii) to (iv) may be disregarded if, at the time of the acquisition, the amount of outstanding bonds, Money Market Instruments or shares/units in issue is not known. The ceilings set forth do not apply in respect of:
- Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or by its local authorities,
 - Transferable Securities and Money Market Instruments issued or guaranteed by any Other State,
 - Transferable Securities and Money Market Instruments issued by a public international body of which one or more Member State(s) are member(s),
 - shares in a company which is incorporated under or organized pursuant to the laws of an Other State provided that (i) such company invests its assets principally in securities issued by issuers of that State, (ii) pursuant to the laws of that State a participation by the relevant Sub-Fund in the equity of such company constitutes the only possible way to purchase securities of issuers of that State, and (iii) such company observes in its investments policy the restrictions set forth under C,
 - the equity investment in any subsidiary company, the purposes of which are exclusively to manage or advise on investments for the Company's account or to redeem its own shares at the request of shareholders.

D. Finally, the Company shall comply in respect of the assets of each Sub-Fund with the following investment restrictions:

No Sub-Fund may acquire directly physical commodities, precious metals or certificates representative thereof.

No Sub-Fund may invest in real estate (property). Investments in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein are however allowed.

The ceilings set forth above may be disregarded by each Sub-Fund when exercising subscription rights a Sub-Fund is entitled to in relation to Transferable Securities held.

If such ceilings are exceeded for reasons beyond the control of a Sub-Fund or as a result of the exercise of subscription rights, such Sub-Fund must adopt as its priority objective in its sale transactions the remedying of such situation, taking due account of the interests of its shareholders.

The Board of Directors has the right to determine additional investment restrictions to the extent that those restrictions are necessary to comply with the laws and regulations of countries where Shares of the Company are offered or sold.

APPENDIX B – INVESTMENT TECHNIQUES AND INSTRUMENTS

The Company will not enter into securities financing transactions within the meaning of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and reuse. COLLATERAL MANAGEMENT

General

In the context of OTC financial derivative transactions the Company may receive collateral with a view to reduce its counterparty risk. This section sets out the collateral policy applied by the Company in such a case. All assets received by the Company in the context of efficient portfolio management techniques shall be considered as collateral for the purpose of this section.

Eligible Collateral

Collateral received by the Company may be used to reduce its counterparty risk exposure if it complies with the criteria set out in applicable laws, regulations and CSSF-Circulars issued from time to time notably in terms of liquidity and issuer credit quality, valuation, correlation, collateral diversification, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:

(i) Liquidity and issuer credit quality – any collateral received other than cash shall be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation.

(ii) Valuation – collateral received shall be valued on at least a daily basis and assets that exhibit high price volatility shall not be accepted as collateral unless suitably conservative haircuts are in place;

(iii) Correlation – the collateral received by the Company shall be issued by an entity that is independent from the counterpart and is expected not to display a high correlation with the performance of the counterpart;

(iv) Collateral diversification (asset concentration) – collateral shall be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Company receives from a counterpart of efficient portfolio management and OTC financial derivative transactions a basket of collateral with a maximum exposure to a given issuer of 20% of the respective Sub-Fund's net asset value. When the Company is exposed to different counterparts, the different baskets of collateral shall be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation from this sub-paragraph, the Company may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member States belong. In such a case, the Company should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the respective Sub-Fund's net asset value. The list of eligible jurisdictions includes, but is not limited to, Canada, Denmark, Finland, France, Germany, the Netherlands, Norway, Sweden, Switzerland, the United Kingdom and the United States of America;

Besides, collateral received shall also comply with the provisions of Article 48(2) of the 2010 Law;

(v) it should be capable of being fully enforced by the Fund at any time without reference to or approval from the counterparty;

(vi) Risks linked to the management of collateral, such as operational and legal risks, shall be identified, managed and mitigated by the risk management process;

(vii) Where there is a title transfer, the collateral received shall be held by the depositary of the Fund. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral;

Subject to the abovementioned conditions, collateral received by the Company may consist of the following instruments as accepted by the Commission Delegated Regulation (EU) 2016/2251 of the 4 October 2016 supplementing the Regulation (EU) No 648/2012 of the European Parliament and of the Council of 4 July 2012 (hereafter referred to as "CDR 2016/2251"):

- (ii) Debt securities issued or guaranteed by Member States' central governments or central banks in accordance with Article 4(1) (c) of CDR 2016/2251 ,
- (iii) Debt securities issued by Member States' regional governments or local exposures whose exposures are treated as exposures to the central government of that Member State listed in Article 115(2) of Regulation (EU) 575/2013 ,

- (v) Debt securities issued by international organisations listed in Article 118 of the Regulation (EU) No 575/2013 ,

- (vii) Convertible bonds provided they can be converted only into equities which are included in an index specified pursuant to point (a) of Article 197(8) of Regulation (EU) No 575/2013,
- (viii) Equities included in an index specified pursuant to point (a) of Article 197(8) of Regulation (EU) No 575/2013.

Rules for application of Haircuts

Collateral will be valued on a daily basis using available market prices and the value of collateral will be adjusted by applying relevant haircuts. For this purpose, in accordance with Article 6 of CDR 2016/2251, the Management Company will rely on the credit quality assessments issued by a recognised External Credit Assessment Institution or the credit quality of (ECAI) of an export credit agency and thus will use standard haircuts to be applied by asset type, maturity and credit quality of the issuer.
